

Sandbox Smart G1 Coffee Grinder

Specification

Model : Sandbox Smart G1

Size : Ø51.5x168.5mm

Product Weight : 480g

Color : Grey

Material : Aluminum alloy with SUS 304/420 stainless steel

Burr : 38mm Stainless Steel Burr (Pentagonal)

Accessories : Cleaning brush

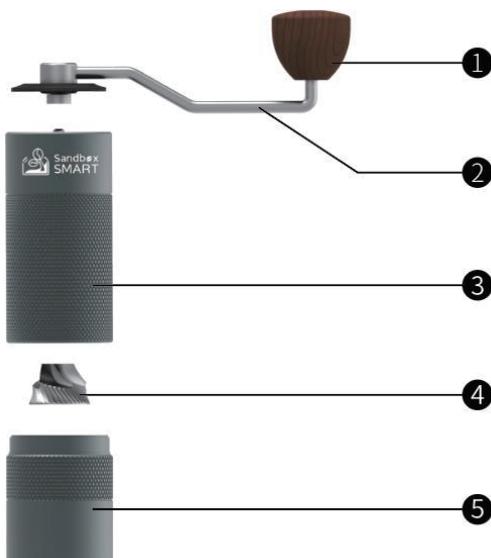

Product Features

- Mini design with large capacity 30-35 grams
- Effortless design for better grinding
- Removable handle, easy for storage
- Dual bearing design to ensure the fluency and consistence for the grinding
- Stainless steel Burr with easy adjustable setting
- Swift-disassembly design, easy to clean

Precautions

1. Only for coffee bean grinding usage.
2. Do not wash the grinder inner parts with water, recommended to clean with brush
3. Do not put heavy pressure, hit or fall, causing damage to the product
4. Return is not accept if product defect because of improper usage.
5. Recommended to store in a dry environment

Part explanation

1. Grip
2. Handle
3. Main body
4. Burr
5. Container

Usage instruction

1. Turn off the container and adjust the grinder clockwise to make the grinds finer and vice versa
2. Fasten body with the container. Then open the handle and pour coffee beans inside from top of the grinder (less than 35g)
3. Hold the body and rotate the handle. Then turn off the container and pour out the ground coffee bean.

Coffee Grinding

- Rotate clockwise for finer grinding; Rotate counter-clockwise for coarser grinding
- Rotate clockwise to the end, the indicate point is as starting point; Refer to start point to adjust the grinder which you preferred.
- The handle cover needed before adjust coarseness
- Note: Turning too much counterclockwise will cause the structure to be disassembled
